Creating Leaders in the U.S. and Beyond

6A2-3 Jenn Hildebrandt
and Her Team Share
the Benefits of
Kangen Water®

“Build for the future by capitalizing on what you know and who you know. Stay open to learning new skills and make new connections that can help your team to grow and thrive.”

**Hironari Ohshiro
Enagic Founder and CEO**

Message from Mr. Ohshiro

Start The Year Strong by Sharing Kangen Water® With People You Care About

2024 was a memorable year for Enagic, our 50th year in business. People who attended will probably point to our epic Enagic 50th Anniversary Global Convention in Okinawa as the highlight, but we shared many moments of collective growth and triumph. Now that we're in 2025, are you hopeful for the year ahead? With you and Kangen Water®, I always am.

2025 can be another great year for distributors and for Enagic, as long as you stay active and motivated. Whether you're in Melbourne, Miami, or Mumbai, you make a difference every time you reach out with a new new prospect in person or online. Start by sharing Kangen Water®, Kangen Ukon, and Anespa with people in your lives.

Enagic and top leaders will continue to provide support with training opportunities and programming. Resources are available to you. Capitalize on them. Your success is connected to your upline and downline through Enagic's patented 8-point compensation plan, but don't just expect other team members to take the lead and make all of the effort to succeed.

Over 2 million Independent Distributors worldwide remain committed to our mission to share Kangen Water® and pursue True Health, a powerful combination of physical, financial and mental health. We've accomplished so much together, but we still have more to do. The world has over 8 billion people who haven't tried Kangen Water® yet. Find ways to get glasses in their hands. Each day provides the chance to introduce new people to Kangen Water®. Start today.

I'd also like to acknowledge the heartbreak that Los Angeles is experiencing due to devastating fires. Enagic USA is based in L.A. and our employees and Independent Distributors have had friends and family members experience profound losses. The road to recovery will be long and challenging. We will continue to support the local Enagic community throughout the process.

In tough times, I find relief with family, friends, and Kangen Water®. The next time you see people you care about, share Kangen Water® with them. We're fortunate to have that option.

Hironari Ohshiro
Enagic Founder and CEO

6A2-3

Jenn Hildebrandt

Change Your Life Story

6A2-3 Jenn Hildebrandt had been on a wellness journey for 15 years, practicing yoga and participating in crossfit competitions, when she met 6A2-3 Brandon Brown in 2019. He made his pitch, and Kangen Water® clearly fit with her active lifestyle. Jenn also appreciated the financial potential from Enagic's patented 8-point compensation plan. She says, "I was looking for a business I could do for years to come." She found that as an Independent Distributor.

Jenn grew up on Lanai, a small Hawaiian island, and currently lives in Oregon and Florida. She previously worked in corporate sales and marketing for 14 years, which has proven quite helpful as an Independent Distributor. "Being a sales coach and trainer also helped me coach and grow my team," she says. "I have been able to duplicate myself and grow other leaders in my direct downline by working closely with and helping them learn sales and marketing."

One of her first sales was to 6A2-2 Dusty Lee. They last worked together in an affiliate marketing business. Jenn says, “We spoke about her long term and short term goals, and decided that the low ticket business model was not the right fit for her goals. She joined me and was my first 6A leader. She is still active today and growing a large team of her own.”

Growing a team requires regular communication and a clear strategy. “I communicate through a private community and training platform that I developed to support my team,” Jenn says. “We help our team create their own motivation by finding their purpose and mission and use Enagic as the vehicle that they tap into to accomplish their personal and financial dreams.”

Jenn continues to make her dreams a reality. “My goal with Enagic for 2025 is to become a 6A2-5 by the end of 2025 while duplicating other 6A2-2 and 6A2-3 leaders,” she says. “My goal is to continue to provide the best world-class sales training, support my team, help create and coach my leaders, and share the benefits of the best water in the world: Kangen Water®!”

India Distributor Profile

Rajendra Kumar Dhankhar

6A2-2

6A2-2 Rajendra Kumar Dhankhar spent the first 27 years of his life in Ghumansar Kalan, a village in the northwestern Indian state, Rajasthan. He currently lives in Pilani, a larger city within Rajasthan's Jhunjhunu district where his family moved to have more opportunities.

Rajendra earned an MSc in Computer Science from M K Saboo Post Graduate College in Piloni and has lectured on computer science to students at his alma mater for the past 22 years.

Throughout his academic career, he has supplemented his income by doing everything from working at a computer center to working in real estate and agriculture. Rajendra's entrepreneurial spirit resonated with his friend, 6A2-4 Shalibhadra Nagori, who presented Kangen Water® and Enagic's patented 8-point compensation plan to him in January 2020. Rajendra liked what he saw and envisioned a "huge career worldwide," so he committed to adding Independent Distribution to his workflow.

So far, Rajendra's college connections are paying dividends. He says, "Because of my previous profession, I have many relations, friendships, and other links with people that will assist me to grow this business." This approach has helped Rajendra grow his team, starting with 6A2 Sushil Saharan, who was the first person to buy a Kangen Water® ionizer from him in 2020.

To continue team success, he's committed to a training model that TVG (Team Victory Global) established to accelerate group growth. They practice online and offline activities, including:

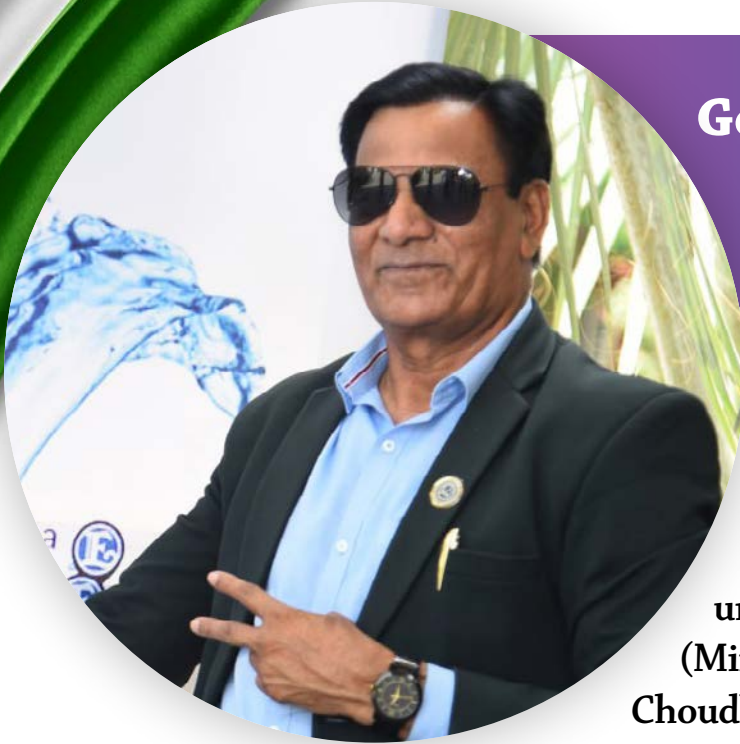

- Telephone conversations
- Zoom meetings
- DTP (Distributor Training Program) meetings
- 2 LDP (Leadership Development Program) meetings
- 13 RTP (Residential Training Program) meetings
- 24 RVDP (Residential Vision Development Program) meetings
- Home meetings
- Water demos

Rajendra is taking these steps to reach his “final goal,” to achieve a 6A2-8 rank before 2030.

India Distributor Profile

Gopal Das Laxman Das Vaishnav

6A2

6A2 Gopal Das Laxman Das Vaishnav served in the Rajasthan police force as a SHO (Sub Inspector) for more than 40 years before retiring in 2016. He was unsure what would follow. That changed when he received an unexpected visit from 6A2-3 Shilabhadra Nagori (Miraculous Water Solution) and 6A2-3 Lakhan Choudhary, who arrived at his door in Udaipur from Ahmedabad, a city in Gujarat that's over 150 miles south.

These top leaders proceeded to demonstrate Kangen Water® and Enagic's patented 8-point compensation plan to Gopal and his friend, 6A2 Dr. Tulsi Ram Sharma. "From the moment I saw the demo, I knew it was something good for my family," Gopal says. "What struck me even more was the business potential this opportunity held. That day, a new chapter of my life began."

After committing to Independent Distribution, Gopal and Tulsi showed their demonstration to Dilip Batheja. Gopal says, "We knew Dilip Batheja would be a great future leader, and he proved it." Dilip now has a 6A rank and has become a valuable team member.

To educate and motivate his downline, Gopal follows the TVG (Team Victory Global) model. He also employs several methods to stay connected and develop his growing team.

- Zoom meetings
- Group meetings
- LDP (Leadership Development Program) meetings
- DTP (Distributor Training Program) meetings
- RTP (Residential Training Program) meetings
- RVDP (Residential Vision Development Program) meetings
- House meetings
- Small get-togethers

Gopal keeps a full calendar, but does value some spare time. “My hobbies are singing and reading books,” he says. “Singing helps me to relax and enjoy my free time, and reading books also helps me in gaining knowledge, which helped me a lot in Enagic.” His favorite books are Rhonda Byrne’s *The Secret* and Joseph Murphy’s *The Power Of Your Subconscious Mind*.

“My one and only goal is to achieve 6A2-3, then step by step, 6A2-8,” Gopal says. “I am also taking all necessary steps so that my team, my downline, can also achieve 6A2-8 rank with the help of our mentors, upline, and Team Victory Global supporting system.”

India Distributor Profile

Vandana Joshi

6A

6A Vandana Joshi is a lifelong Rajasthan resident. She was born in Tonk, a less populous district, and now lives in Jaipur, the bustling state capital that's known as "The Pink City."

6A Ratan Singh Choudhary initially approached Vandana about Kangen Water®. Vandana found Enagic's products and patented 8-point compensation plan appealing, so she committed to becoming an Independent Distributor. Ratan is now Vandana's supportive upline and mentor.

Vandana is a teacher who previously ran the Chartered Accountant Institute in Jaipur. She also has a successful 15-year track record in sales. Vandana first sold educational books. She now applies ideas to Independent Distribution that she learned about self-improvement and business development through her other work and from the TVG (Team Victory Global) support system.

Vandana sold her first Kangen Water® ionizer to 5A Heera Lal Chaudhary in April 2021 and has continued to record sales and increase her rank since then.

Her teaching acumen has come in handy throughout her Enagic journey. “My communication with the team is about providing them better facilities and education so that they can achieve in less time,” Vandana says. “My main aim is to educate the team.”

To recharge and stay inspired, Vandana enjoys watching motivational movies, going on long drives, and reading books in her spare time.

In the short-term, Vandana aims to reach a 6A2-3 rank before December 31, 2025. For the future, her long-term target is 6A2-8 in the next 5 years. To achieve these goals, her plan is to “teach the team proper product service and knowledge with the support of TVG.”

India Distributor Profile

Kusum Mahor

6A

6A Kusum Mahor's Enagic journey began with a Kangen Water® demonstration from 6A2 Mukesh Kumar Mali and 6A2 Shyam lam Ram. She immediately saw value for herself and other people in her community, but needed to convince them the water is worth it. Kusum took action.

She says, "I started to provide Kangen Water® device demonstrations to all my well known persons, relatives, and for my team members." She built momentum that continues to this day.

Kusum grew up and attended school in Gwalior, a large city in central India's Madhya Pradesh state. She now lives about 500 miles southeast in Ambikapur, a smaller city in Chhattisgarh.

She was a housewife focused on “simple living” before beginning Independent Distribution. She graduated college with a degree in Electrical Engineering, which has served her well. Kusum says, “Technical interest, and a helping nature have helped me as an Independent Distributor.”

She made her first sale, a K8 Kangen Water® ionizer, to her elder brother, Dr. Mukesh Mahor. Mukesh is a doctor in Ayurveda holistic medicine in India who has achieved a 4A rank.

“My goal with Enagic is so simple, like my living style; I want to achieve my dreams by helping others to achieve their dreams,” Kusum says. “My goal is to become 6A2-8 and to help my team do the same.”

To educate and motivate team members during daily meetings that take place both online and offline, Kusum utilizes terminology and methods she learned from the TVG (Team Victory Global) support system. These efforts aren't limited to the following:

- Growth lines
- Daily morning Zoom meetings
- Birthday celebrations
- Achievers celebrations

Kusum adds, “I am also very grateful to 6A2-3 Shalibhadra Nagori (Miraculous Water Solution), TVG founder, because of all the achievements done with the TVG system, training and support.”

To help keep her team prepared for future achievements, they share a team slogan: “Milenge to Jarur Jitenge.” This phrase translates from Hindi as, “If we meet we will definitely win.”

India Distributor Profile

Suman Rakesh Chotia

6A

6A Suman Rakesh Chotia grew up in Suratgarh, a city in Rajasthan's Sri Ganganagar district that's known for growing crops like cotton and wheat. Now she cultivates Kangen Water® sales.

6A Saroj Dhandhal and 6A Subhash Dhandhal first introduced Suman and her husband to Enagic and Kangen Water® and motivated them to become Independent Distributors.

At that point in 2023, Suman was a housewife. Presently, her husband works as a government school principal and supports Suman's efforts as an Independent Distributor.

Suman earned a college degree in library and information science in Sri Ganganagar Rajasthan. She credits her science background, ability to speak English, and comfort with public speaking as keys to her strong performance as an Independent Distributor.

After installing a Kangen Water® ionizer in the family home and seeing positive results, Suman sold her first ionizer to her younger brother, 5A Anjani Kumar Chotia. She reached a 6A rank within just 10 months of registering as an Independent Distributor.

Her “final destination” is 6A2-8. “To achieve this rank, we have continuously been making macro and micro plans per our TVG (Team Victory Global) supporting system,” Suman says. “We always try our best to make our growth lines upgrade their ranks frequently so that the entire team remains motivated and works with full efficiency.” To accomplish this, she stays in contact:

- Home meetings
- Personal meetings
- Phone calls
- Programs
- Training sessions

Suman basically breathes and drinks Independent Distribution. “During my leisure time I enjoy reading books regarding ionized water, details and technical content about ionizers, network marketing, and leadership training,” she says. “I always make new plans to boost our business and try to spend maximum time with my team members.” So far, the results are evident.
