## 位於美國南加州阿納海姆市的萬豪酒店舉行了世界大會，集合世界各地的分銷商！

On the 13th of June, 2,300 distributors from 40 countries gathered at the Marriott Hotel in Anaheim, CA to attend the Global Convention.

CEO Hironari Ohshiro commenced the event by thanking everyone for their attendance and expressed his anticipation of a successful convention which he hopes everyone there will help lead to gain wonderful results.

All 2,300 attendants pledged solidarity under the "Let's Unify" banner and with this year's slogan, "Dreams Come True!" in mind, expressed unwavering ambition toward their goals.

Just 2 days earlier (June 11), a 6A meeting and business seminar were held at that same hotel, and on the 12th, many also attended a training session given by our excellent top trainers. The participants were devotedly engaged in their training and both events were highly productive for all.

You can find further reports on various events focusing on the convention in this month's issue of E-Friends.

## Let's spread the "Circle of Compassion" – The Spirit of Giving, More than Receiving

推廣「人情之和」施比受更有福的精神！

Mr. Ohshiro rallies the audience with his speech. 令演講會進入高潮的大城會長

The convention began with the introduction of 6A distributors from each country on stage in alphabetical order from Australia and lastly, to the United States. It was then followed by the CEO's speech:

"My name is Hironari Ohshiro; my initials are H and O. If you put the number '2' in the middle of these letters, you will get H<sub>2</sub>O, in other words, 'water.' You see, my path to Kangen Water was destined."

"The H (Hydrogen) in H<sub>2</sub>O, provides 2 molecules, while the O (Oxygen) takes away 1, which means that H<sub>2</sub>O gives more than it receives. If we all gave more than what we received the world would become a happier place. So let's spread this 'Circle of Compassion' around the world."

The CEO's speech was followed by a certification ceremony for our new 6A & Above distributors and a bonus award ceremony for distributors achieving the highest results in various contests. Enagic branch managers from each country were then introduced on stage and those who had achieved the most outstanding results were also awarded. The main event ended with a closing speech by Daniel Dimacale before shifting to the fun dinner-time party.

會議的開幕典禮由各國6A分銷商上台的自我介紹開始。由英文字母的順序——上台介紹，最初是澳洲開始，最後是東道主的美國。後由大城會長演講以下的內容。

「因為我的姓名是Hironari Ohshiro，所以是H和O組成的，H和O之間加入2便是H<sub>2</sub>O，即是水。還原水的工作便是我的命運」

「H<sub>2</sub>O的H（氫/Hydrogen）提供2個分子，而O（氧/Oxygen）取了一個分子，即是H<sub>2</sub>O付出的較多。如付出比得到的話，

這世界便會更加幸福了。這便是要向世界推廣「人情之和」施比受更有福的精神」。

大城會長演講後，進行了新6A的頒獎儀式和頒發獎金給各種比賽的成績優異者。繼而Enagic的各國分店長在台上逐一介紹，也表揚了各優秀的分店長。

最後由Mr. Daniel Dimacale進行了閉幕演講，結束了主要的活動。隨此而來便是愉快的晚餐派對。

## “The Cause of Odor” – Treat Kitchen Waste with Highly Electrolyzed Water!

I know I'm being blunt here but are you keeping your “trash cans” clean?

If you look around your house, you'll probably find many trash cans placed here and there. In the kitchen, you may have trash cans for “burnable” and “non-burnable” waste and even more for “recycling” (cans, glass, plastic bottles, etc.) There might also be one in your restroom, bathroom, entrance hall, veranda, and even by the dining table.

What's most worrying is the kitchen garbage and food waste that cause stains and odor.

No matter how hard you try to keep it clean, the moisture from wet food and leftover drinks can sometimes splash and accumulate at the bottom of your trash can.

### ■ Spray Strong Acidic Water Daily

Your trash can could easily turn into an odor producing nightmare, especially during the rainy season and hot summer.

It shames me to admit it, but I've had odor and even bug incidents because I neglected cleaning my trash can.

Learning from my mistakes, I have since started to spray Strong Acidic Water on any trash that may cause odor and also make sure to clean the whole trash can once a week.

### ■ Don't Forget to Disinfect!

Once I've washed the trash can with regular water, I use Strong Alkaline Water and Strong Acidic Water to get rid of any residue dirt and lingering odors ♪ In addition, I finish off by both rinsing and spraying the inside with disinfecting Strong Acidic Water. The key here is to completely dry the trash can before using.

In order to comfortably enjoy an “incident”-free summer season, it is essential to keep your trash cans clean and well sanitized! (^\_^)b (thumbs up)

## “臭的根源”廚餘垃圾以強電解水處理!

順便提一下，你的「垃圾桶」平日都會好好地清潔了嗎？（一一）

家中的分類垃圾桶，廚房裏的「可燃燒垃圾」「不可燃燒垃圾」「可循環（金屬罐・玻璃樽・膠樽）」，廁所、洗手盆枱、浴室、玄關、露台、飯桌附近等都可能會有垃圾桶…。

其中，廚房裏垃圾桶內發出臭味的廚餘垃圾和食物殘渣等，都應該已棄掉了吧。

即使怎樣不想垃圾桶骯髒，附於廚餘垃圾的水份或是殘留的果汁飲品等都會積累在底部。

### ■ 首先用強酸性水噴一噴

由回南天到炎夏之間，很快便會變成惡臭的根源了（@@）。

實際我家的垃圾桶也沒有好好地清潔，尷尬地成為了惡臭、蚊蟲等的受害者iii( \_ \_;;)

從此以後，首先對會發臭的垃圾用強酸性電解水噴一噴灑一灑，必須一星期一次好好地清潔一下垃圾桶！！

### ■ 完成除菌後不要忘記

用水清洗後，清除殘留的污穢、臭味等便要使用強還元水和強酸性水♪

此外，完成後用強酸性水把裏面噴一噴來除菌。最後把垃圾桶徹底地剩乾才是重點。

特別是炎熱的夏季，要注意垃圾桶的衛生情況，希望能帶給大家舒適的生活（^^）b
