A Ribbon Cutting to Remember

Enagic Founder and CEO Hironari Ohshiro Dedicates the Newly Reopened Enagic Tokyo Plaza

**“YOUR efforts matter, YOUR endeavors
are noticed, YOUR inclusion in the
Enagic Family is important, and YOU
matter as a True Enagic Ambassador!”**

**Hironari Ohshiro
Enagic Founder and CEO**

Message from Mr. Ohshiro

Finish the Year Strong and Benefit Your Business With Team Activities

Dear Enagic Independent Distributors,

Seasons greetings from Enagic! After 48 years in business, Enagic has accumulated some valuable organizational knowledge I would like to share with you.

We all know that holidays are for celebrating with family and friends. The challenge with this time of year is that sometimes the abundance of good cheer and multiple gatherings can distract us from our focus on our livelihood. The successful leaders don't take a week off or even a day off.

Instead of experiencing an interruption in your business this holiday season, I challenge you to focus each day on sharing Kangen Water® and on helping your team rank up. While the rest of the business world slows down in December, we can seize the momentum and take Enagic to new heights heading into 2023!

We are helping you and your team rank up faster through global contests that reward production at any rank on a daily and monthly basis. The details of our contests and the updated daily results and achievers are found on the online Distributor Support Portal (DSP), so familiarize yourself with this valuable resource and tell your team to do the same. If you are a 6A and above leader, one of the best ways for you rank up is to focus on team building, mentorship and inspiring your downline by promoting global Enagic sales contests. And since you have a business mindset for success, you should be monitoring your team and key leaders using the DSP.

In more of our markets, Kangen Water® ionizers are surpassing one percent market penetration in households. One percent market penetration for any durable goods manufacturer is an impressive accomplishment that is the result of sustained excellence. We have already passed this important milestone in Okinawa, Hawaii, California, and Washington, and we expect to achieve the same in more Enagic markets in 2023!

It seems like almost everyone has a Kangen Water® ionizer in Okinawa or California, but the fact of the matter is that most people around the world have never heard of Enagic. This lack of awareness means that the market for new customers and prospects is almost limitless. And don't forget that this holiday season is the time to support your new Distributors as they share Kangen Water® and Ukon with new customers.

Thank you for your leadership and don't forget to drink your Kangen Water®!

Hironari Ohshiro
Enagic Founder and CEO

India Distributor Profile

Jaydeep Vekariya

6A2-3

6A2-3 Jaydeep Vekariya learned about Enagic through his friend 6A2-4 Mitesh Baldha. He was working in the textile industry, but after seeing his first Kangen Water® demonstration and realizing the potential for True Health, he realized, “In fact I am waiting for this opportunity.”

Jaydeep lives in Surat in India’s Gujarat state. He previously worked as an electrical engineer, but has always had an entrepreneurial streak and started two businesses: e-commerce and a furniture showroom. Jaydeep struggled in both ventures, but after gaining experience, found success working in the textile industry. He’s used the contacts and skills he developed to succeed as an Independent Distributor, including his “way of thinking” and “trust factor.”

Jaydeep sold his first Kangen Water® machine to his best friend, 6A2 Kaushik Hirpara, a moment he remembers fondly. “I was so glad when he was ready to do this business and trusted me.” Jaydeep helped motivate another top performer, selling a water ionizer to 6A2-3 Mohit Vaghashiya. He also found a powerful team member within his family, brother 6A2-3 Rajesh Kumar Vekariya.

simple,” Jaydeep says. “Every time I think about my downline achievement and work for that.”

His vision for the future is to share Kangen Water® with as many people as possible. Jaydeep recruits Independent Distributors of all kinds, “especially those people who have skill, but they never got any opportunities.” His big goal is to be the world’s youngest 6A2-8. “My plan is very

To educate and motivate his downline, Jaydeep prefers to meet people in person, though he’s also a proponent of weekly Zoom meetings. The main lesson that Jaydeep teaches is a philosophy that has helped him to reach his goals: “Never give up in life.”

India Distributor Profile

Rakesh Pravinbhai Kukadiya

6A2-3

6A2-3 Rakesh Pravinbhai Kukadiya grew up in Surat and continues to live in this Gujarat city of approximately 8 million people. He discovered Enagic through 6A2-5 Amit Patoliya. Rakesh says, “In the first instance I did not believe him, but later on, user testimonials and his achievements in a short span in this business inspired me to be part of it.”

Rakesh had diverse life experiences before becoming an Independent Distributor. He earned a Bachelor of Commerce, degree with an Accounts major from J Z Shah College. Rakesh had an office in China and imported high end furniture and interior design products to India. He ran one of the biggest furniture showrooms in Surat. Rakesh worked as a contractor on government projects through the Road & Building Department, earning a top AA rating. He also ran a real estate business, creating turnkey hotels and high-end bungalows.

Despite his repeated business successes, Rakesh saw Independent Distribution as different. “I had never talked to or heard anyone talking about water or ionizers,” he says. “This was my very first and unique experience where I started learning everything from scratch. Not a single thing helped me build this business from my past. Every single day was a new learning, may it be product or business.” However, he was sure of one thing: belief in his ability to learn, which has helped him to succeed as an Independent Distributor.

His first sale was to 6A2 Jenish Moradiya, the second person he pitched on the opportunity. Since then, Rakesh has developed a system that’s helped him to build a robust downline. “We have action circles,” he explains. “Each one of us has 5-10 active distributors to work with closely. We are in daily communications. Online and offline mode for daily, weekly and monthly training.

We motivate them with help from some self-designed programs.”

With his system in place, Rakesh has big goals, working to have 64 team members reach 6A2-8 by 2025. “One goal is to make a big difference in people’s lives,” he says. “Another goal is to go global and have active teams in most of the countries.” To help make these dreams a reality, they actively work on 3 aspects that help them to build the business:

- 1) Mindset
- 2) Skillset
- 3) Toolset

“Work duplication is the key,” Rakesh says. “That’s how the power of compounding works.” The drive is to create ongoing team growth and “creating leaders consistently.”

India Distributor Profile

Hinesh Virjibhai Sakariya 6A2-3

6A2-3 Hinesh Virjibhai Sakariya first learned about Kangen Water® from 6A2-3 Mohit Vaghasiya and 6A2-3 Jaydeep Vekariya in April 2019 and immediately bought a SD501 Platinum water ionizer. He started sharing the benefits and testimonials to near and dear family members and friends and started his successful Independent Distributor journey.

Hinesh was born and raised in Rajkot, a city with approximately 2 million people in Gujarat, western India. He had been practicing interior design since 2013, developing a portfolio of over 500 projects in and around Gujarat. Hinesh built a strong reputation in the design field, but saw more value in becoming an Independent Distributor and committed full-time in 2020. So far, he's contributed to True Health for over 2,500 families. "I am proud to be a part of Enagic," he says.

"Because I was practicing interior designing for 8-9 years, I developed many personal relationships that helped me in my work as a competent Independent Distributor," Hinesh says. His first sale was to a friend, Chandu Limbani, who remains a Kangen Water® user.

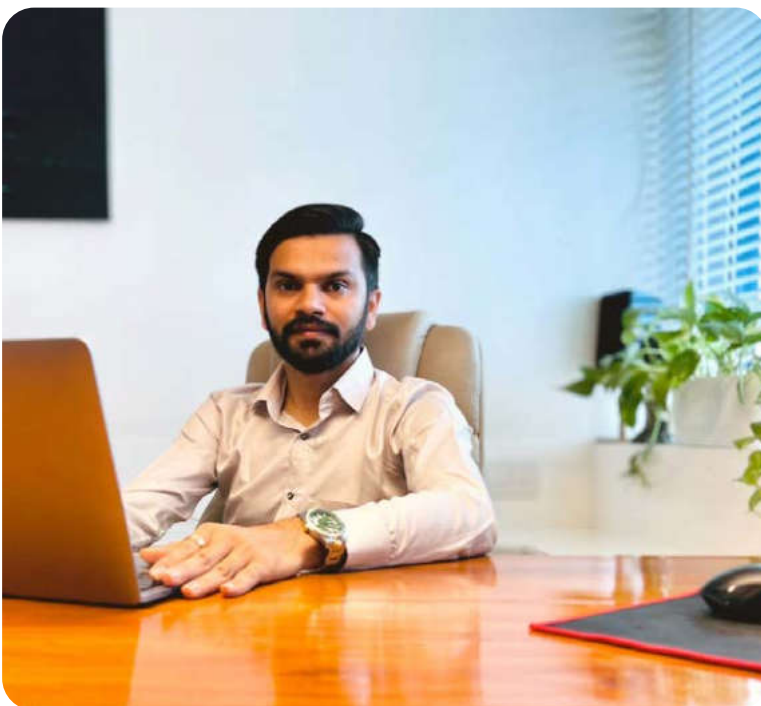

“My goal with Enagic is to secure 1 lakh [100,000] families with health and wealth and fulfill their dreams, goals and achievements,” Hinesh says. To help deliver Kangen Water® to this many people, he’s developed a comprehensive multi-part team strategy, which includes:

- training sessions
- one-on-one meetings
- residential training program
- guest meetings
- sales presentations
- product knowledge

“I am working at the ground level to empower my team leaders,” Hinesh says. “Follow up and closing strategy through corporate events is our best way of communication.” Group meetings motivate “weekly discussion with corporate ethics for a long and successful journey.”

Hinesh and his team have even adopted a two-part motto: “वसुधैव कुटुम्बकम् ॥ (The Earth is a Family) through सर्वे भवन्तु सुखिनः सर्वे सन्तु नरिमया (May all be happy, all be free from disease, be witness to all auspicious events and no one has to be a part of sorrow).

Hinesh takes Independent Distribution seriously, but knows how to make the most of his downtime. “When I’m not working, I love to travel to other countries and explore their culture and lifestyle,” he says. “I also like sports activities like cricket and volleyball. When I rest, I read The Bhagavad Gita and Vedas from which I get inspiration and implement it in my life.”

Thrilling Finish Highlights Latest Enagic San Diego County Open

The latest Enagic San Diego County Open took place from October 11-13 at Enagic Golf Club at Eastlake. This year's sold out tournament featured a thrilling finish. Native Aussie Austin Bautista shot 69-63-64 and overtook Rico Hoey in the final round, finishing -17. As a result, he won a \$10,000 first place prize and received an SD501 Platinum Kangen Water® machine.

Right after the tournament ended, Enagic Golf Club at Eastlake VP / COO Neil Finch and his team were already back renovating the golf course, aerating the greens and throwing seed to get the course ready for the 200 golfers who play on-site each day. "The fun part is seeing this many people come out and enjoy our facilities," Finch said. "It's a beautiful thing."

Finch's crew continues to refine Enagic Golf Club at Eastlake, improving conditions for golfers. Since last year's tournament, they added new tees on holes 7, 11, 15, 16 and 17, stretching the par 71 course to 7,116 yards, making it "a legitimate championship golf course," per Finch. They also expanded three fairway bunkers, doubling their size and making play more challenging.

Enagic Golf Club at Eastlake had an initial three-year contract with Southern California PGA to host the Enagic San Diego County Open, and due to the commitment they've demonstrated, recently secured another three-year contract to host the tournament in 2023, 2024 and 2025.

Enagic Golf Club at Eastlake continues to gain credibility with golfers in the neighborhood and

throughout the golf world. An improved experience also helped them get and keep the Farmers Insurance Open qualifier, which returns to the course January 17-19, 2023. Enagic Golf Club at Eastlake also welcomes an USGA U.S. amateur four-ball qualifying event September 13, 2023.

Continued upgrades have paid dividends for Independent Distributors and other golfers who visit Enagic Golf Club at Eastlake. “All the distributors throughout the world should be proud of the facilities here,” Finch says, “and they’re going to continue to get better.”

Enagic Tokyo Branch Reopens With Ribbon-Cutting and Celebration

Enagic's Tokyo branch reopened on October 14. The event began with an opening ceremony at Tokyo Plaza. A standing room only crowd gathered in the flower lined seminar room and enjoyed speeches from Enagic Founder and CEO Hironari Ohshiro, his wife Yaeko, and Enagic leaders like Tomo Takabayashi, Go Hamagawa and Nick Nakao. Distributors from the Sakai Team, Ishii Group and Filipino Distributors Group in Japan also spoke. After a ribbon cutting, attendees applauded Independent Distributors who recently achieved 6A, 6A2 and 6A2-2 ranks.

Revelry continued with a commemorative soiree and dinner with more speeches in a Tokyo Station Hotel party hall. The night's moderator, Asato Matsumoto, announced sales contest winners. Enagic branch managers from Asian countries toasted the Tokyo branch reopening. Enagic staff members from Japan also shared good wishes for the Tokyo office and company.

Enagic Mexico City Hosts Memorable Morning Event

On October 1, approximately 150 existing and potential Independent Distributors attended an Enagic event at Hotel Barceló México in central Mexico City. Enagic Mexico City Branch Manager Yolanda Bortoni welcomed guests to the morning program, which energized guests.

Kaz Yokoya and Enagic Director Keishi Hirano co-hosted the event and spoke about the company's global vision. Yokoya was a key speaker and provided information about Enagic products, Kangen Water® benefits and Enagic's patented 8-point compensation plan.

6A2-2 Uriel Alvarado led a Kangen Water® demo and 6A5-3 Pol Frias made a motivational presentation sharing his vision, struggles and what he values with the Enagic community.

Independent Distributors shared personal stories designed to inspire listeners in a special session called “My Kangen Moment” that included the following speakers.

- 4A Magaly Lozano
- 6A2 Monica Muguerza
- 6A3-2 Ademir Alvarado
- 6A Roberto Zatarain
- 3A Hector Renero

A ceremony recognized recent 6A and above rank-ups. Organizers hosted a lively Q&A session before speakers returned to the stage to thank the audience and company for such a special gathering. As Bortoni says, “Mexico has potential, great leaders and we are enthusiastic for growth!”

Enagic Dubai Celebrates Fifth Anniversary

On October 30, approximately 400 guests gathered in The Address Hotel's Constellation Ballroom near Dubai Marina to celebrate Enagic Dubai's milestone 5th anniversary. The event was special for Independent Distributors in and beyond Dubai. This United Arab Emirates city sits at a crossroads between East and West and welcomed people from around the globe for this event, including Japan, Malaysia, Singapore, India, the United States and Europe.

The morning session centered on “Road to Success” motivational speakers and topics designed to enhance knowledge and business know-how while empowering guests to achieve more.

- 6A5-4 Norli Razmi & Zahid Salleh, Malaysia (“Our Kangen Journey: From Ordinary to Extraordinary”)
- Poorya Montaseri, DSA-UAE Founder & Executive Director (“MLM Industry Past, Present & Future”)
- 6A4-4 Judy Fleming, Singapore (“Why I Love the Enagic Business”)
- Maged Ebrahim, Dubai Branch Manager (“The Power of Enagic Dubai”)
- 6A7-6 Sam Sia, Malaysia (“Kangen Business Made Simple”)
- 6A14-7 Cynthia Briganti, USA (“Faith to Success”)
- 6A9-6 Jayvee Pacifico, USA (“Vision of Enagic Distributor Association”)

After a lunch break, organizers recognized people who recently ranked up to 6A, 6A2, 6A2-2 in Dubai and India, and one new 6A2-3 from India. Guests acknowledged achievers in the 8 Points Daily Sales Contest from August, September, and October. Guests also delighted in a mix of Western and traditional Arabic performances.

Judy gave Ukon Soap DD as a prize. Three top leaders - Sam, 6A2-6 Cora Loh, and Dr. Muhammad Asmi - gifted water ionizers. After all, Kangen Water® remains the biggest reward.

• BENEFITS OF •
**STRONG
KANGEN
WATER**
ph 11.0 or higher

**NOT FOR
DRINKING**

*Not for drinking.
Strong Kangen Water
preserves hygiene in
your daily life due to
its strong cleaning
effect. It has
dissolving and heat
conducting benefits.*

*Usage:
food preparation and
cleaning.*

FOOD PREP

Remove rawness from vegetables such as green onions, bamboo, wasabi and flowering fern with Strong Kangen Water.

CLEANING

Clean cutting boards and dishcloths. Good for cleaning oil and tough grime from vents, as well as for general cleaning in the kitchen.

STAIN REMOVAL

The extra strength, absorption power, will remove coffee, soy sauce, and oil stains with ease.

DISHES

Use less detergent when washing your dishes. Save on water bills, as only one-third to one-fourth of the usual amount of water is adequate for rinsing off detergent.

Enagic Participates in World Uchinanchu Festival

Uchinanchu Taikai, known in English as the World Uchinanchu Festival, celebrates Uchinanchus (the local name for Okinawans). The 7th annual event recently took place in Naha from October 30 - November 3. Since Enagic Founder and CEO Hironari Ohshiro, wife Yaeko, and their company all have roots on the island, organizers asked Enagic to sponsor the event. Enagic also staffed a booth at the Okinawa Convention Center that promoted Kangen Water®.

Uchinanchu Taikai debuted in 1990 and takes place every 5 years or so. According to organizers, “The purpose is to bring people together, reaffirm their roots and identity, and thereby be able to pass them on to the next generation.” Their mission aligns with Enagic.

October 2022 New 6A and Above Title Achievers
