Message from Mr. Ohshiro: Spiraling Upward

Change the World for Yourself and Others with True Compassion

Being an Independent Distributor creates a positive spiral that helps people to change their lives while inspiring other members of our ever growing global community. Now is the time to realize True Compassion's magic and make a positive impact on people around you. It all starts with one person before we pass this spark on to others. This giving philosophy is Enagic's foundation and remains a powerful motivational force.

My dream is to free people from whatever binds them, from whatever prevents their ultimate ascension into greatness. When I look back at Enagic's history, it fills me with gratitude that so many Independent Distributors have overcome their hardships to reach today's success. Thanks to your dedication and the efforts by thousands of people across the globe, we continue to spread the message of True Health.

So many people in this world are seeking independent wealth and health. You could very well be the person they've been waiting for that can point them in the right direction.

I'd like to thank one person in particular: my wife Yaeko. We recently celebrated our 51st anniversary on April 10. She's been a constant inspiration and valuable partner in business and life. Together, let's keep changing the world (and drinking Kangen Water®).

Hironari Ohshiro
Enagic Founder and CEO

United States Distributor Profile

Thao McGill

6A2-4

6A2-4 Thao McGill grew up in Vietnam and currently lives in Honolulu, Hawaii. She discovered Kangen Water® through Facebook. “I had heard of Kangen Water® before, but never really put much thought into the water or even anything about the business,” she says. “A friend of mine, who is an Independent Distributor, re-introduced me to the product... It was an easy decision for me to buy my first machine; the Leveluk K8,” which she purchased at the end of 2018.

Thao and her husband Kelly were enthusiastic about Kangen Water®, and even hosted an Enagic seminar at their restaurant, but didn’t understand the business to the extent that they hoped. To learn more, the couple took a trip to Okinawa in March 2019 to attend Mr. Ohshiro’s birthday celebration and learn more about Enagic. “There I was so lucky to meet 6A3-7 Dang Nguyen, 6A4-6 Tan Nguyen, and 6A3-5 Nancy Doan,” Thao says. “These leaders were very open about their own success stories and shared a lot of information about the business that would also help me with my decision to become an Independent Distributor.”

“When I met Mr Ohshiro and visited his family home, I was overwhelmed with a sense of love and respect,” Thao says. “I felt Mr. Ohshiro’s passion and I wanted to do my own work to share this amazing water with people all over the world.” She was also encouraged by Enagic’s patented 8-point compensation plan and potential financial benefits. After returning to the United States, Thao took a trip to California to train with Dang at his house and then became an Independent Distributor. She made sales to friends 6A2-2 Yến Cao and 6A2-3 Lee Meadows, and then she was off and running in her new career.

Thao’s upbringing in Danang and Saigon, Vietnam, clearly helped to build her entrepreneurial spirit. “It was hard times in Vietnam and we were working really hard just to make ends meet,” she says. “Everyone was devoted to working and supporting the family. I was the baby in the family of 7, and was tasked with helping everyone with their own business. I had to juggle school and work for so many years.”

Thao and Kelly are also both longtime business owners in Hawaii. She ran three stores while her husband operated two restaurants, including Tiki’s Grill & Bar in Honolulu, which is still in business. “Our businesses have always been successful, but we spent so much time, money and energy in building our businesses, that the returns did not always outweigh the effort,” Thao says.

Learning from previous business efforts has helped Thao succeed as an Independent Distributor and allowed her team to navigate different situations. “I can teach my team how to handle adversity with strength, commitment, and passion,” she says. Years of customer service have also helped her team.

When Thao became an Independent Distributor, she promised her son that she’d earn a 6A2-3 rank within five years. Even though the world had to contend with COVID-19, she opened a Kangen Water® showroom, invested in her team, and surpassed that goal in half the planned time. She ranked up to 6A2-4 last month, aims to reach 6A2-5 by March 2024, and continues to strive for team success, knowing that everybody’s success is connected. “I must keep the momentum going,” Thao says.

“Right now I’m continuing to focus on helping every single one in my team to reach their goals, especially the new 6As,” Thao says. To provide boosts, Thao has identified four key initiatives.

- Focus on training and building more leaders and teaching everyone to become independent as soon as possible so we can duplicate faster.
- Booking more local events and helping the team be more creative and more independent to share more Kangen Water®.
- Always recognize and encourage the people willing to learn and let them grow and appreciate their efforts.
- Give yourself and your team the deadline to finish. That is the only way to push everyone to focus more and try harder.

Thao and her team have also made the most of being located in Hawaii. “We have a great mix of cultures, societies, and business ideas,” Thao says. “Everyone from around the world knows something about Hawaii, whether through TV, travel, or tourism. We in Hawaii are a sharing society. And I want to take advantage of the popularity of Hawaii and its connection to the rest of the world, to help spread the word about Enagic. In 2022 my Hawaii team achieved 4% of the total market share of the growth of Enagic. I feel our location in Hawaii, and the team we have developed in Hawaii will make 5% or 6% market share possible in the next year or two.” Of course, Thao isn’t just focused on her home state, saying, “We have scheduled demos daily and we are looking to expand the business to more states and countries and also younger ages.”

“I feel so blessed that Mr. Ohshiro gave us this amazing opportunity to love and to learn from everyone in the Kangen family, not just about business, but to grow yourself on a different level,” Thao says. “I’m so proud to be a part of Enagic. We are growing year after year and more people know much more about Kangen Water® than before. I can’t wait to celebrate our success and get to meet more people around the world.”

India Distributor Profile

Nisha Dipak Kukadiya

6A2-3

6A2-3 Nisha Dipak Kukadiya was born and raised in Surat, which is known as Diamond City in India. 6A3-3 Sanjay Sondagar, 6A3-4 Arvind Vataliya and 6A2-2 Mansukh Kalsariya first introduced her to Kangen Water® and presented her with the opportunity to become an Independent Distributor. On a trip to Malaysia, she met global leaders who boosted her confidence in Enagic's business model. One final push from her family convinced her to commit.

Nisha spent the previous 10 years working in the textile industry, which proved unsustainable. As she says, "My income was not sufficient for my livelihood and I was also in heavy debt." Thankfully, making the most of her Independent Distributor opportunity got her back on track.

She made initial sales to three leaders: 1A Naran Narola, 6A2 Janka Kacchadiya and 6A2-3 Raj Kikani. "With the support of our great mentor 6A2-4 Nageshwar Shukla Ji and Team NSI, my Enagic business journey took flight," she says. Nisha also credits her "collective experience," and most importantly, her family's support, with achieving "remarkable growth."

"I have achieved this prestigious rank with the support of my spouse and my lifeline Dipak Kukadiya, my entire family, and special support from my brother Mitesh Kukadiya," she says. "I am blessed to have all of them in my life."

“We empower and enable our team through various digital and physical events and keep the team united through various celebrations,” she says. Nisha highlights 5 different Team NSI initiatives designed to “educate them about the business, guide them, motivate, recognize, and keep the business momentum going.”

1. Parivartan: This Hindi word means “CHANGE.” This is a program created in which the training topics are covered for the participants like business training, motivation, team building, etc., which helps to keep the distributors educated and consistent in the business. It is conducted under the leadership of senior distributors and contribution of all respective distributors along their teams.
2. Super 30 Days: This is a 30-day digital training program initiated by 6A2-4 Nageshwar Shukla for his distributors where they conduct online trainings which mainly includes learning about how to develop/grow the financial planning, business relationships and moral relationships while doing business.
3. Leadership Development Program: This online program includes learning about business development and team building.
4. Prashikshan: This Hindi word means “TRAINING.” It’s a one-day training program conducted for business learning, motivation, recognition of team members, etc.
5. RTP and OTP: RTP stands for “Residential Training program” and OTP stands for “One day training program.” These programs are conducted to motivate the team members, recognise the rank achievers and share success stories on this platform.

Nisha’s future goal is to help everyone achieve True Health while empowering people to succeed. To gather the strength to support others, Nisha works on her own well-being with help from family. “Through meditation I disconnect from work and connect with myself,” she says. “And whenever I get time I spend quality time with my beloved family.”

India Distributor Profile

Bharatkumar Hiralal Patel 6A2-3

6A2-3 Bharatkumar Hiralal Patel spent his childhood with his parents and three brothers in Kanesara, a village in Gujarat before relocating to Surat, the state's capital. His whole family currently lives further north in Mehsana.

Good friend 6A2 Vinodbhai Mayani led Bharatkumar to Enagic. He initially purchased a Kangen Water® ionizer to share the product with his father before recognizing the business opportunity for himself. "I loved that the company's products are being traded all over the world," he says. Bharatkumar also enjoyed the chance "to help people develop their skills and become leaders."

Bharatkumar has been involved with network marketing since 2002 and also worked with six different crypto currency companies, but never experienced the success he's enjoyed as an Independent Distributor. He credits two mentors, 6A3-4 Arvind Vataliya and 6A3-3 Sanjay

Sondagar, with helping to rethink how he interacts with prospective team members. They told him, "Network marketing is a business of taking people along." This message resonated with him, "softened" his ego and informed Bharatkumar's approach, which has proven effective.

Bharatkumar had a strong start, making three Kangen Water® ionizer sales on a single day, to uncle 6A2-2 Jitendrabhai Patel 6A2-2, neighbor 6A2 Rajendrabhai Patel and friend 6A Nitesh Modha.

To continue growing and supporting his team, Bharatkumar developed a robust training calendar that consists of the following initiatives:

- Residential Programs
- Seminars
- Guest Seminars
- Zoom Meetings
- Leader Development Program

In the future, Bharatkumar hopes to achieve a 6A2-5 rank while helping 10 people reach 6A2-3.

- 6A2-2 Jitendrabhai Patel
- 6A3-2 Bharatbhai Chowdhary
- 6A2 Harshadbhai Chakraborty
- 6A2-2 Hetalben A Joshi
- 6A2 Rajendrabhai Patel
- 6A2 Belaben M Modi
- 6A2-2 Bhagirath Bhai Patel
- 5A Ketan Bhai Modi,
- 1A Ramilaben V. Patel
- 6A2 Shaileshbhai Patel

To relax, Bharatkumar has found ways to fill his spare time and recharge. He says, “Whenever I am free, I am fond of cooking, listening to bhajans, and motivational videos.”

United States Distributor Profile

Samantha Dean

6A

6A Samantha Dean learned about Enagic through two contacts. 6A John Atkinson was a professional soccer player with the L.A. Galaxy who became a customer at Sammy D's Juices, her bygone business in Anaheim. "He was incredibly knowledgeable about water awareness," she recalls. 6A6-2 Priscilla Echave, from her bible study group, encouraged Samantha to commit to Kangen Water®. She did, buying a Kangen Water® ionizer on Valentine's Day, 2021.

Samantha saw the potential benefits in Kangen Water® and Enagic's patented 8-point compensation plan. Several financial setbacks also motivated her to make a change. "I took money out of my IRA to invest in this incredible equipment that pays me back every single day," she says. Independent Distribution has rewarded her in many ways, not just financially.

She grew up in Orange County and remains a proud California resident. Samantha attended California State University, Long Beach, earning a B.S. in Criminal Justice, but pursued a psychology career. She's still continuing her education in Clinical Psychology and hopes to earn a PhD in Nutritional Psychology. "Establishing connections with like minded individuals that helped me grow tremendously has been such an honor," she says. "Even more so in Enagic!"

"I have always had positions of leadership at jobs that I really didn't have a passion for," Samantha says. "I've been in the customer service industry for about 20 years and always had a passion for serving others holistically and naturopathically, but at my jobs it was more like a day-to-day way to make a living. I'm very grateful to have been introduced to this incredible company and community."

One of her first sales was to a family friend, 4A Marlene Caceres. “She saw me going live on one of my Health and Wellness Facebook Pages and I was talking about this equipment,” Samantha recalls. “She really wanted it for her household and wanted to save hundreds of dollars a month by greening her home. She also wanted it for her family because she had already heard about Enagic and what they stand for.” Samantha can point to these persuasive talking points and more when making sales pitches, which is helping her to build a successful track record.

“My customers have become like family,” Samantha says. “I love that about this business. We go from customers, to friends, to pFamily. We call each other and discuss each other’s goals and visions. I like to help them in their future endeavors.”

In a sense, becoming an Independent Distributor has proven to be one kind of calling for Samantha. “I would like to be the beacon of light to others that might feel disempowered, disenchanting and unmotivated like I once was,” she says. “Enagic was an answered prayer for me and I love to share how it can also be an answered prayer to others as well!”

Since becoming an Independent Distributor, Samantha has only increased the possible upside for herself and her downline. “The best thing I can do is exude my full potential for this world and follow what my mentors Colten and Priscilla Echave have taught me,” she says. “Helping my team and others grow and fulfill their goals in life has been the single greatest privilege in the world! I wouldn’t give it up for anything! To be in Enagic is forever.”

Moldova

Distributor Profile

Ruslan Fliștoc

6A2-2

In 2018, 6A2-2 Ruslan Fliștoc traveled from Moldova to Bucharest, the capital in neighboring Romania. Before returning home, his colleague 5A Iuliana Prodanoiu took him on a surprise stop at 6A2-4 Daniel Romascanu's office. Ruslan witnessed an impressive Kangen Water® demonstration from 6A2-2 Ciprian Plăcintă, an experience he still considers "the greatest gift that anyone and everybody may be granted with: the chance to drastically change your life."

"I was more than amazed by the power of that device," Ruslan says. He was also motivated by Enagic's patented 8-point compensation plan and Enagic Founder and CEO Hironari Ohshiro's vision for True Health. Ruslan finally found what he'd been seeking for years: "a company with a brilliant history that lasts for many years, a great innovative technology, a product that is out of competition, and a unique compensation plan." He says, "I decided, on the spot, to get a machine for my mother, the dearest person in my life." Ruslan also became an Independent Distributor.

Unlimited potential energized Ruslan, who returned to Chisinau, Moldova, and invited 24 people to learn about Kangen Water® over the course of two days. 5A Sergiu Petcu was the last person to witness Ruslan's presentation and the first guest to buy a Kangen Water® ionizer. "I am thankful for his trust," Ruslan says. "From that day, we started doing daily presentations and having meetings with people." He was able to start building an impressive team.

Ruslan graduated from the Academy of Economic Studies of the Republic of Moldova, majoring in Economic Law. Afterwards, he worked a grueling agricultural job before running his own HoReCa (HOTels, REstaurants and CAtering) business, which required a 15-18 hour per day commitment. He found more balance with network marketing, a model he's found "opens a bunch of opportunities to each and everyone, regardless of its competences or level of training, to make a change in life, to grow."

Ruslan's previous work stops have been important to his development as an Independent Distributor. "I can say with certainty that the experience gained over the years has impacted me directly," He attests. "It is definitely about teamwork skills, which are crucial in network marketing and the high level of responsibility for the product we offer to our clients."

Ruslan has experienced some success as an Independent Distributor, but is hardly satisfied. “Since the first day I discovered Enagic, I have been aiming for 6A2-3,” he says. “I will soon achieve this goal, thanks to the beautiful team I have created and which I thank enormously for all the work we do together.” He also appreciates regular contact with Enagic Germany Branch Manager Davide Romano and Enagic Italy Branch Manager Monica Ferrara. Ruslan says, “They are very supportive, with a high team spirit, which is very crucial for team growth.”

“Building a team allows you to keep growing, to socialize with different people and to discover new great things,” Ruslan says. “Everything is possible with self-confidence and trust.” He prides himself and his downline on embracing and encouraging every new team member. “The golden rule in MLM is that it’s better to earn 1% from 100 people than 100% from your work alone,” Ruslan says. “When we seek for change badly, solutions appear, the universe helps us.”

“The main goal for the next few years is to help tens, hundreds of thousands of families to drink Kangen Water® and at the same time to grow financially,” Ruslan says. “I also strive to have teams in many countries and continents forming an amazing community of happy people.”

Ruslan currently lives in Italy and Moldova, though he enjoys traveling because it gives him the opportunity to discover new cultures. He says, “Enagic gives me the freedom of possibility to live wherever I want, which is great.” After all, “Enagic is beyond a common job, it is a lifestyle.”

Mr. Ohshiro Celebrates Birthday With Enagic Family at E8PA Headquarters

On March 17, Enagic CEO and Founder Hironari Ohshiro celebrated his 82nd birthday with family members, friends, and his extended Enagic family at E8PA Headquarters in Sedake, Okinawa. Wife Yaeko was of course by his side and his son Hiroki, Enagic's Vice President of Enagic International, sang with guitar accompaniment. Several top leaders even traveled from overseas to join in the fun, including 6A9-6 Jayvee Pacifico from the United States. As always, Kangen Water® was the drink of choice.

What does the gold standard mean?

Enagic sets the global gold standard in water ionizer technology. Kangen Water® ionizers for home and commercial use adhere to strict quality, performance, and reliability standards set by the WQA (Water Quality Association), ISO (International Organization for Standardization), and TÜV Rheinland in Germany and Austria.
